| **Team ID** | EN25CS3011074 |
| **Project Name** | Global Olympic Sports Performance Analysis |
| **Maximum Marks** | 2 Marks |

**Customer Journey Map**

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

| **Phase of Journey** | **Stage 1**<br>**Explore & Discover** | **Stage 2**<br>**Analyze & Compare** | **Stage 3**<br>**Decide & Act** |
|---|---|---|---|
| **Actions**<br>*What does the customer do?* | • Opens the Olympic dashboard on the website<br>• Reviews KPI cards: athletes, sports categories, nations<br>• Scans the world map and the medal trend | • Filters by Country, Year, Sport Category and Region<br>•Compares sport categories by medals per athlete<br>•Compares investment, efficiency and regions | • Summarizes key insights<br>• Shortlists sports and regions worth supporting<br>• Shares the story or dashboard link |
| **Touchpoint**<br>*What part of the service do they interact with?* | • Dashboard 1: KPI cards (athlete participation, sports categories, nations)<br>•World map: total medal achievements across nations<br>•Line chart: trend of total medals awarded over the years | •Avg medals per athlete by sport category (bar chart)<br>•Global performance metrics by country with the KPI Selector<br>•Dashboard 2: investment vs medal performance (bubble) and average efficiency by region (pie) | • Comparing medal totals across Olympic hosts (bar chart)<br>• Regional medal efficiency and distribution by sport (donut chart)<br>• Tableau story and Tableau Public share link |
| **Customer Thought**<br>*What is the customer thinking?* | • "What is the overall picture of Olympic medals?"<br>• "Which countries win the most medals?"<br>• "Can I read this data quickly?" | •"Which sport categories give the most medals per athlete?"<br>•"Which nations win many medals for their investment?"<br>•"Which regions are the most efficient?" | •"Which sports and regions should we support next?"<br>•"Do host nations win more medals at home?"<br>• "Can I explain this clearly to others?" |
| **Customer Feeling**<br>*What is the customer feeling?* | Curious but a little overwhelmed by the amount of data across 60 countries, 50 sports and 18 Games. | Engaged and focused. Filters and the KPI Selector make comparison feel easy and insightful. | Confident and satisfied, with clear evidence to support decisions and a story to share. |
| **Process Ownership**<br>*Who is in the lead on this?* | The analyst (Nandini Sethiya) keeps the data and dashboards up to date; strategists and journalists review the KPIs. | The sports strategist and investment analyst lead the comparison; the analyst supports with filters and calculated fields. | The strategist and investment analyst lead decisions, and the journalist leads the storytelling; the analyst supports with the story and published link. |

| | | | |
|---|---|---|---|
| **Opportunities**<br>*How canweimprove this stage?* | • Add short KPI descriptions in tooltips<br>• Add a short how-to-use note on the dashboard<br>• Highlight top countries automatically | • Add a country search / compare mode<br>• Add benchmark lines for top nations<br>• Link charts so one click filters all views | • Add an export-to-PDF summary<br>• Add forecasts for upcoming Games<br>• Add annotated key takeaways |
